

The **Permaculture Team** has been very busy. We held a mini blitz/skill share at Matt and Chris Huck's on May 6, held a Plant Swap on May 20, and worked at the Railroad Square Garden on May 20. Members have been attending a Tuesday night series, and several members attended a permablitz. Photos of events are being made available for the web site. At our May meeting a new member Kelly Sandman brought and demonstrated her hand built A frame for measuring contour lines for swales. We set a date for the swale building at Sharon's (June 25). Matt H reported on the NEGR training which he and Bill Witham attended. We have \$1000 from NEGR toward training of our choice to use for community organizing. We discussed holding a screening of *Tomorrow*. As always, we had a GREAT potluck! The next meeting will be June 19 at 5:30 at 39 Barnett St., Waterville.
