

The **Rethink, Reduce, Reuse, Recycle Team** continues to work on organics collection at WMSt. restaurants. We will be contacting farmers who have pigs to see if collection can be arranged. During the Earth Day Clean-up, it was obvious that cigarette butts were a big problem. Reducing this has become a priority. We are investigating plastic ban reduction through either charging a fee or establishing an outright ban. At the next meeting we will be studying the NRCM toolkits for both plastic bags and cigarette butt reduction. The next meeting will be June 6 at 1:00 in the Front Street Conference Room of Waterville City Hall.
