

**Education & Community Outreach Team** is re-assessing how to best spend our time to create positive change. We agreed to work to increase our understanding of the municipal cost associated with street lights. We are considering assisting with historical and cultural signage along the Maine Long Trail along the Kennebec. We may also host a seminar or a book group on the world view of domination. The next meeting will be Wednesday, November 15 at 9:00 in Waterville City Hall.
