

Education & Community Outreach: Much of our work currently focuses on energy. We are working on getting Steve Kahl scheduled to speak at Rotary meeting and at other venues about renewable energy. We have copies of Peter's Window Dresser's Powerpoint and the Window Dressers manual and will look at how they can be edited/improved, with input from Clough and possibly Chuck Lakin. Bill Basford brings interesting information on his latest projects to many meetings. This month he filled us in on his training on health coaching for diabetics and shared related books by Dr. Joel Fuhrman such as The End of Diabetes.

The next ECO Team meeting is scheduled for March 26 at 10:30am at Waterville City Hall's IT room.
