

Permaculture: The team is meeting with Martina and Roger on June 9 in Unity at the Bioregional Conservancy to tour the facility and discuss plans for Maine Permaculture Day in August. We will co-host an event for that day with Bioregional Conservancy. Alexis entered and won a contest to paint an ecoMaine Recycle Bin. She will be doing this with help from team members and will finish it by July 1. A 3 part "Earthway's Sampler" is in the works for this fall with Lawrence Adult Ed. We are coordinating with ECO team members as well for this program which we hope can become a regular offering. The Cool St site for a new demo garden looks like it will not work out. The next possibility is at the Methodist Church on Pleasant St. Work at Sharon's house in Waterville will likely continue later this fall with a permablitz. Work continues at the Viles Arboretum as well as at Rail Road Square garden. The next meeting will be June 18 at 5:00 pot luck at 39 Barnet Ave., Waterville.
