

## Energy:

The Energy Team met September 20, 2018. The primary agenda item was to discuss the progress on the municipal guide to converting convention street lighting to LED lights. This is an ongoing project headed up by Bill Basford. The other prime agenda item was to review the weatherization slides that are proposed for volunteer's who are interested in visiting homes (in pairs) to assess the home for weatherization needs.

Energy Team accomplishments were prepared for Linda to be included in a SMMC promotional mailing.

Clough is working on an energy efficiency article for the Central Maine newspapers for mid-October.

Along with In-Source Renewables, we are co-hosting a National Solar Tour. See the monthly update for specifics.

The next Energy Team meeting is Tuesday October 16, 2018 at 9:30. Winslow Town Office, Council Chambers.
