

Rethink, Reduce, Reuse, Recycle:

The Plastic Bag Committee received a \$750 grant from the New England Grassroots Environmental Fund. This was used for an educational mailing about our plastic bag initiative to registered Waterville Democrats and independent voters. We plan to meet and celebrate once the vote has been tallied.

The Food Recovery Committee had a productive, focused meeting. The hope is to be fully organized and ready to start gleaning in earnest in 2019. The next meeting is November 13 at 11:00 in the Front Street Conference Room.
